

RENÉ RODRÍGUEZ

Technical Product Owner / Full-Stack Developer

CV

Technical product and software professional with 10+ years of experience across product development, digital platforms, software engineering, and business operations. Experienced in building and scaling data-driven products, translating business requirements into technical solutions, and collaborating closely with engineering, design, and stakeholders in cross-functional environments.

Strong background in web platforms, APIs, analytics, and product delivery, with hands-on experience defining product requirements, prioritizing features, and contributing to architecture and platform decisions.
